

# Alpaca Transfers Completed

© 2009 Alpaca Registry, Inc.

**DISCLAIMER:** Because transfers are affected by the date chosen by the seller, when the transfer is entered, and contract sales over a period of time, these numbers lag in some cases up to several years. As a result, the most recent years on the graph will be lower than they will end up as more time passes. 2008 in particular will be lower than it will actually end. This graph is static data and is not frequently updated.

This graph only represented transfers that were completed by 03/11/09 and should not be used as representative of industry alpaca sales data.
